Volume 19 Number 13

*The Journal of Current Laser Abstracts* is an international journal published monthly. It is devoted to the comprehensive coverage of the world's open literature on laser theory, design and application. Current source publications include periodicals, conference proceedings, government reports, patents, dissertations, books, etc., in a research and technology range extending from the theory of electromagnetic radiation to such diverse applications of lasers in guidance, holography, display, geodesy, medicine, ophthalmology, laser fusion, and laser isotope separation. A simple, clear classification system makes references easy to find in a fraction of the time required for a manual search.

**Subscription and single issue prices:** \$310. U.S. per year includes surface mail; single issues \$26. Complete back volumes from Volume 5 to 17, \$200. each; Volume 18, \$300. Air Mail delivery (Foreign), \$28. per year.

**Change of address** should be submitted with effective-issue date.

**Missing issue requests** will be honored without charge if received within six months of the date of publication; older claims are subject to the single-issue price of \$26. **Requests for replacement issues should come directly from subscribers** and should be addressed to:
